

Simmons & Simmons LLP is a leading international law firm located in 21 major business and financial centres throughout Europe, the Middle East and Asia with over 1,500 lawyers and legal staff worldwide.

We view the world through the lens of our key sectors: asset management and investment funds, financial institutions, technology, media and telecommunications (TMT), and healthcare & life sciences. For our clients this means they benefit from a law firm fully focussed on their sector, wholly understanding of the challenges they face and completely tuned into their needs.

Over the decades we have built our international presence using a combination of local lawyers with local knowledge and fully integrated teams acting together at a global level. The different practice groups across our offices are recognised as pre-eminent specialists in their field of expertise and are highly ranked both as team and as individuals in Chambers & Partners, Legal500 and other internationally leading legal rankings.

Our Brussels office opened in 1962 and currently reflects the overall firm structure. It has a specialised Litigation practice acting for Healthcare & Life Sciences clients.

We are currently looking for an associate to join the team.

ASSOCIATE LITIGATION

Profile

- You have a Belgian Master of Laws degree and have 1 to 6 years' experience as a lawyer, preferably with an interest for **commercial law**, **data protection**, **litigation** and **regulatory** in the **Healthcare & Life Sciences sector**
